Electricity, Electronics, Telecommunication and Semiconductor

SPECIFIC CONTENT

CPU, LSI for memory , communication, image processing, signal processing and automobile use , ASIC, FPGA, Analog IC, Video chip, measument and automatic controlling, communication equipment, network equipment, manuals for portable base stations, etc. MAJOR OUTSOUCERS ON semiconductor, Altera, Nokia Siemens Networks, National Semiconductor, Texas Instrument, San, Vestas, etc.

| Electricity, Electronics, Semiconductor | Installation and maintenance manual for wind power stations Liquid crystal television
LSI for CDMA cellphone
 Computer network
 LSI for Image processing
LSI for memory
 CPU, LSI for communication,
LSI for signal processing
LSI Logic – ASIC, LSI for storage
FPGA
LSI for signal processing
LSI for audio signal processing
LSI for comunication and image processing | Specification documents for new electronic devices, Technical momthly reports, Whitepaper

Several semiconductor manifacturers
Several famous leading-edge fabless facilities |

	CPU, Chip set Analog IC Video chip LSI for Image processing LSI for automotive LAN for automotive	
Industrial machinery	Literatures on Measurement and Automatic Control, Instruction and maintenance manuals Installation and Maintenance manual for Wind power stations	.
Communication, Computer, Software	Communication equipment, Networking equipment, Storage, Database, Analysing tool, Image processing, Operating manuals, Instruction manuals, Service manuals, White paper, Specification documents, Troubleshooting guides, Quick reference guides	.
Technical research paper	Science and technology paper	A major univ. in Asia
